

## CTBUH Web Developer

*With 100,000 people moving into cities across the globe every day, the 21st century will truly be the century of the city. Humanity's continued existence on this planet will rely on our ability to transform cities into dense, livable centers of innovation that reduce both land consumption and energy needs. In order to accommodate an additional 2.5 billion people in the world's cities by 2050, the shapers of our urban landscapes will require guidance through access to expert research and resources that promote best practices for smarter cities. This is why the Council on Tall Buildings and Urban Habitat's mission is critical to promoting a better urban future.*

The CTBUH is seeking a Web Developer that will assist in the creation, maintenance, and oversight of our numerous digital platforms, including the CTBUH website, The Skyscraper Center tall building database, dedicated event registration portals, and more. In this capacity, you would be responsible for the coding development of highly impactful systems, which drive and enable our not-for-profit mission: to leverage our research, organizational scope and global influence to guide the next generation of thought leaders in the tall building industry, thus positively impacting the planning and design of the world's urban centers. Will you be a part of that effort?

### ▶ KEY RESPONSIBILITIES:

- Develop, oversee, and maintain the primary CTBUH website.
- Enhance and optimize The Skyscraper Center tall building database.
- Build and manage dedicated event websites and registration portals.
- Liaison with decision-makers to recommend, develop and support web solutions.
- Oversee policies and procedures for staff involved with web editing.
- Update domain name DNS entries.
- Manage servers running Windows 2008/2012 and Ubuntu 14.04 running on AWS.
- Provide general IT support to staff members.

### ▶ WE HAVE:

- A competitive salary and generous benefits package, including health, dental, vision, and life insurance.
- A 401(k) plan with up to 9% employer contribution.
- A team of sharp, friendly, committed staff members to work with.
- A Downtown Chicago location near public transportation and Lake Shore Drive.
- Gym and bike room access in the building, with CTBUH covering gym membership.
- An office culture that encourages new ideas and rewards personal ownership of tasks.
- Bonus time off between Christmas and New Year's Day in addition to standard holidays and vacation days.

### ▶ YOU HAVE:

- A Bachelor's degree in a relevant discipline.
- 3 years minimum experience in both frontend (HTML/CSS/JavaScript) and backend (PHP/MySQL) development.
- Experience with PHP MVC frameworks, specifically Laravel.
- Knowledge of networking configuration and deployment.
- Familiarity with Microsoft Active Directory.
- IT support experience, preferably with Microsoft Office and Adobe products.

## HOW TO APPLY:

Please send a brief cover letter (1) explaining why you would be ideal for this role, along with a resume (2), and evidence of websites and databases you have designed or been significantly involved with developing and maintaining (3) to [careers@ctbuh.org](mailto:careers@ctbuh.org). Your application must include: cover letter, resume, and a work sample.
