## 2011: A Tall Building Review

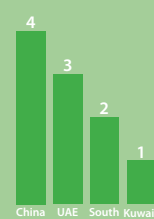

### Tall Buildings 200 meters or Taller Completed in 2011: by Country

### Tall Buildings 200 meters or Taller Completed in 2011: by City

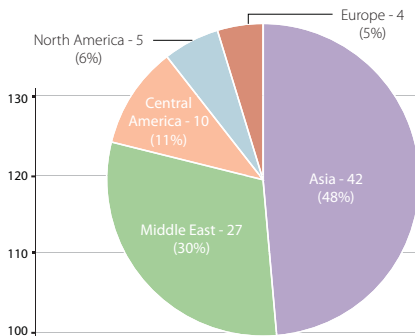

10 buildings over 200 meters were completed in Panama City in 2011; twice as many as the rest of the Americas.

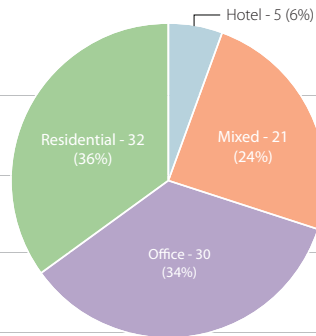

Ten supertalls were completed in 2011, more than any other year in history. All of them are located in Asia and the Middle East.

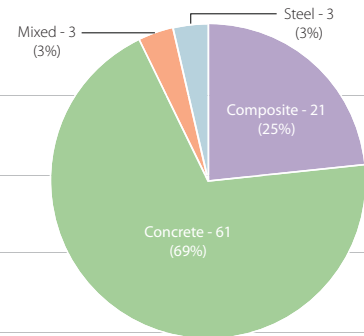

Tall Buildings 200 meters or Taller Completed in 2011: by Region

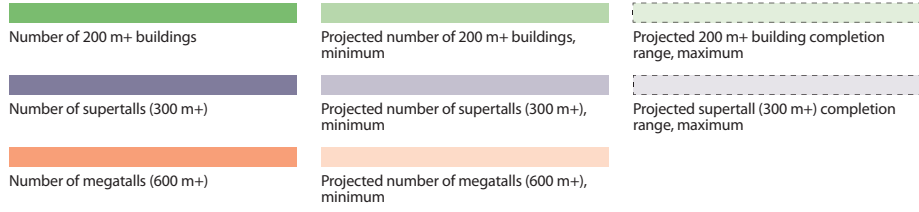

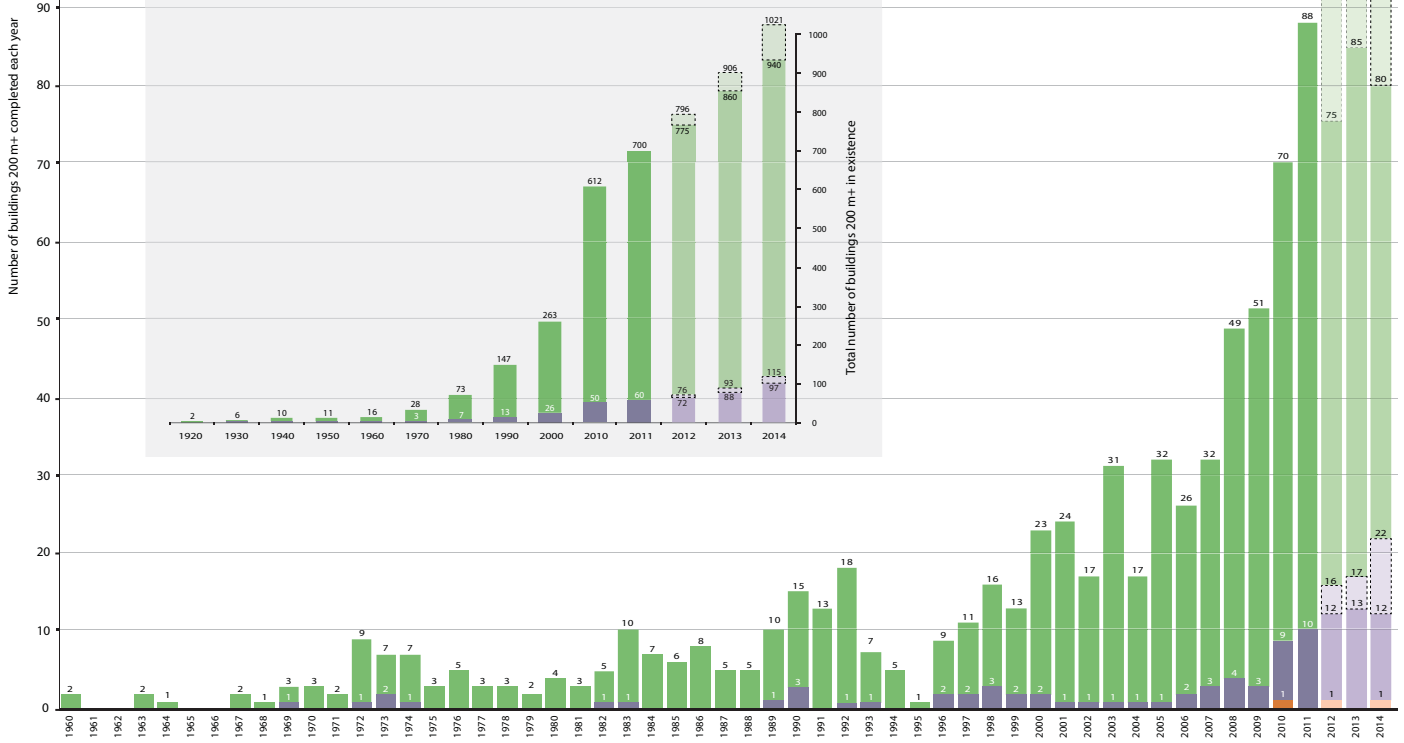

Tall Buildings 200 meters or Taller Completed in 2011: by Function

Tall Buildings 200 meters or Taller Completed in 2011: by Structural Material

Tall buildings 200 meters or taller completed each year from 1960 to 2014

- Notes:
1. We can predict 2012–2014 building completions with some accuracy due to projects now in advanced construction.
  2. Totals after 2001 take into account the destruction of the World Trade Center Towers 1 and 2.
  3. Buildings are measured according to the CTBUH Height Criteria "Height to Architectural Top." For more on CTBUH height criteria, see <http://criteria.ctbuh.org>

Although the percentage of global buildings completed annually in China has decreased this year, there are now 33 Chinese cities that contain buildings over 200 meters

27 buildings over 200 meters were completed in the Middle East in 2011. This continues a dramatic increase from 2009 (6) and 2010 (14).

USA 2.3%

With only 2 of the 88 buildings over 200 meters completed in the United States, the US accounted for 2.3% of 2011 completion globally, down from 66% in 1990.
